QUALITY MIXING AND PUMPING SOLUTIONS

**QUALITY MIXING AND PUMPING SOLUTIONS FOR
ALL THINGS CONCRETE, GROUT AND SCREED**

ABOUT CGS EQUIPMENT

CGS Equipment is a leading supplier of concrete, grout and screed equipment products to the mining, mineral processing, civil, construction and infrastructure industries in Australia and globally. Our philosophy is built on customer service, relationship building and after-sales support.

OUR CORE CAPABILITIES

- Customised solutions
- After-sales support
- Broad range of parts and accessories

CUSTOMISATION, REFURBISHMENT & SERVICE CAPABILITY

Our in-house team are here to keep your equipment in perfect running order, from simple repairs to full re-builds. We also customise machines to meet all Australian and individual requirements.

BEFORE

AFTER

EXCLUSIVE DISTRIBUTORS

We are the exclusive Australian and New Zealand distributors of market leading brands.

OUR PRODUCT RANGE

REED CONCRETE AND SHOTCRETE EQUIPMENT

REED Concrete and Shotcrete Equipment are based out of California, USA and have been manufacturing concrete placing equipment since 1957.

CONCRETE PUMPS

A Series | B Series | C Series

- Heavy duty concrete pumps
- Handles a range of materials from harsh pea gravel mixes through to big rock concrete
- Wide range of horsepower, pressure and volume combinations
- Super heavy duty steel frames
- Weatherproof engines and frames built to thrive in extreme conditions
- Smart, simple design for easy operation and maintenance
- Industry-leading safety features to protect people and machinery

REED A40HP

REED B50

DUST EXTRACTOR

CGS Dust Extractor

- Dust hood attachment does not obscure the view into the hopper
- Less waste through overfilling
- Less stoppages as the visibility of the hopper means a more consistent flow of materials

GUNITE PUMPS

LOVA/SOVA

- Ideal for refractory application, tunnels, concrete repair, slope stabilisation, retaining walls and more
- Smooth output
- Portable and easy to store
- Versatile and easy to maintain
- Minimum labour required to operate
- Rugged and reliable

OUR PRODUCT RANGE

TURBOSOL

Located in Treviso, Italy, Turbosol is a leading manufacturer of machines and systems for pumping and spraying mortar, cementitious mixes and concrete.

TB30

T20X

TSR-7

CONCRETE PUMPS

Betonmaster TB30/TB50/TB30C/TB70C
/TB90C/TB140C

- Flow rates from 15 cubic metres to 140 cubic metres per hour
- Trailer mounted or crawler track mounted
- Designed for heavy working conditions
- Tracked machines for piling applications
- Powerful, compact and reliable
- Capable of pumping concrete, grout, self-levelling floor screeds, shotcrete and more
- State of the art hydraulic system
- Low operating costs
- High performance level with all sorts of concrete

TRADITIONAL AND DRY-MIX MORTAR

T7 EVO/T20X/Giotto

- Suitable for small or large applications
- High quality components
- Easy to clean and maintain
- Perfect for all applications such as concrete repair, rendering, self-levelling floor screeds, grouting, internal plasters and external groutings

ROBOTIC SHOTCRETE APPLICATION

TSR-7

- Protection canopy for mechanical parts
- 2 rubber crawler tracks & 4 stabilisers
- Liquid cooled diesel engine Kubota 18 kW
- 7.5kW electric motor
- Remote control with cable
- Telescopic hydraulic boom, 4 sections with protection cover
- Shotcrete gun with brush movement

OUR PRODUCT RANGE

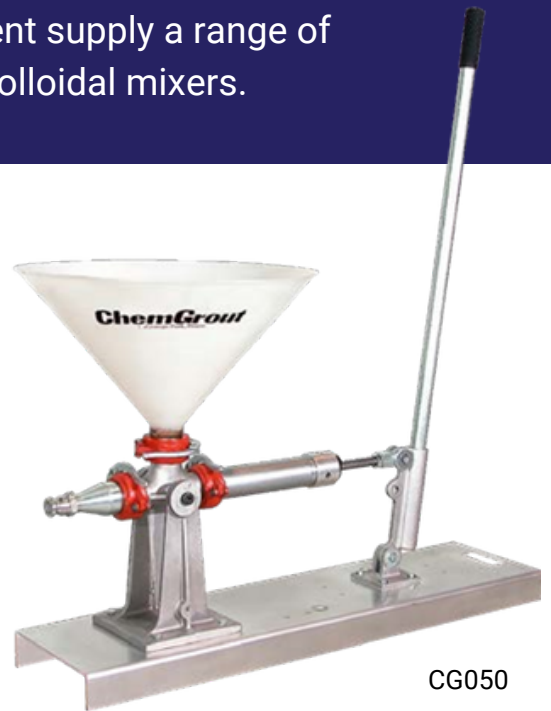

CHEMGROUT

ChemGrout has the widest selection of grouting equipment in the world. ChemGrout is based out of Illinois, USA. CGS Equipment supply a range of grouting equipment from hand pumps to heavy duty colloidal mixers.

PISTON GROUT PUMPS

CG050

- Available in manual, pneumatic or hydraulic powered
- Lightweight, portable, and skid mounted
- Easy to disassemble for fast and efficient cleaning

CG050

PROGRESSIVE CAVITY MIXERS/PUMPS

CG500/CG500P/CG502/CG507/CG580

- Variety of power options including air, hydraulic, electric & diesel/hydraulic
- Heavy duty steel frames, tough enough for any conditions
- Integrated mixing and pumping
- Engineered to be user friendly and trouble free

CG500

COLLOIDAL MIXERS

CG460/CG600/CG630/CG680

- Heavy duty and high volume
- Required for applications such as dams, tunnels, post-tensioning, underground mining, hollow drill and micro piling
- Equipped with centrifugal diffuser type pump rotating at 2000 RPM to ensure fast and complete wetness

CG600

OUR PRODUCT RANGE

CEMEN TECH

CGS Equipment is about options, because the concreting industry is not one size fits all, and standard pre-mix is not right for every job. With Cemen Tech's volumetric technology comes a new level of flexibility and control. Suitable for short pours, ready-mix delivery, civil applications, mining, precast, shotcrete, gunite and specialty concrete including fast setting, coloured and pervious. Great for producing concrete in remote locations.

VOLUMETRIC CONCRETE MIXERS

C SERIES/M SERIES/STATIONARY

- **AP TOUCH:** Cemen Tech's proprietary onetouch control system. Just select the mix design you need and the system auto adjusts. Pre-load unlimited mix designs so you are always ready for any job
- **BATCH RECORDING:** Generate and print a custom batch ticket for your customer
- **DUAL AUGER CEMENT METERING:** Take the guesswork out of pouring with consistent mix designs within ± 1 per cent every time
- **WIRELESS REMOTE:** Operators can move about the job site while maintaining control of the mixer
- **TWO-SPEED CEMENT BIN:** Easily switch between concrete mixes and flowable fill applications

OUR PRODUCT RANGE

OVERMAT

Overmat supply simple and reliable equipment for laying concrete floors and screeds on site. They have been a leader in mechanical worksite automation for over 45 years. Overmat's mobile batching plants are operator friendly and save time, improve efficiency and increase profitability even with the most complex applications.

TRADITIONAL AND SELF-LEVELLING SCREED

A series/T series/EPS Series

- Powerful software ensures accurate dosage control, from aggregates of various sizes, to binders, additives (in both liquid and gel form) and any fibres that need to be added
- The built-in diagnostics and our technicians' remote support allow you to work easily even in the most difficult situations
- The system is fixed in a horizontal position and is highly versatile, creating whatever mix the customer requires
- Can also produce lightweight and foam cement

A SERIES

Motor-powered and radio-controlled covering

Compact vehicle, enters into narrow places

Stainless steel operator panel

Fully hydraulic

Horizontal equipment with extraction by belt (sand) and screw (cement)

High pressure cleaner

Radio remote controlled hose reel

Dosing of the materials through weight and flow sensors

Liftable mixer. Great clearance of the vehicle for manoeuvring on the road

T SERIES

OUR PRODUCT RANGE

The Clever & Co machines are used in some of the most demanding and adverse conditions, in refractory application, building refurbishment, tunnel construction or mining. Made in Germany.

TSN BUNKER STATION

CL06

SHOTCRETE MACHINES

SBS TSN

- Ideal for shotcrete and refractory compounds
- Uniform material flow
- Provides turbo mixing of the highest standard
- Suitable for all dry-spray shotcreting systems
- High performance
- Practically dust-free
- Minimal rebound

GROUT EQUIPMENT

CL06

- Developed for universal applications
- Especially designed for injection and grouting works, drill hole or backfilling jobs and processing of wet spraying mortars
- Robust for use in underground situations, tunnel construction or civil engineering
- High performance pumps are both variable speed and economical
- Conveying capability of up to 90 litres per minute and a conveying range of 100m or more

OUR PRODUCT RANGE

STARING

CGS Equipment supply a range of mixer sizes from Staring, each developed and manufactured to be a reliable, world class product, which will suit the harshest of conditions. With more than 50 years experience in the mixer trade, Staring pan mixers are well known for their high performance and durability. Made in Denmark.

PAN MIXERS

SM90/SM125/SM340/MEGA 300/MEGA 500/MEGA 1000

- Hinged cover with safety cut out
- Powerful European manufactured gearbox
- Easy cleaning mixing head replaceable without tools
- Adjustable and replaceable mixing arms made of chrome nickel steel
- Changeable mixing paddles with metal hard facing

SM90

MEGA 500

STARING A/S

OUR PRODUCT RANGE

PFT

PFT develop, produce and distribute the latest machine systems in module construction technique for conveying, mixing, pumping and efficient application of plasters, mortars and floor screeds. Made in Germany.

PLASTER AND MORTAR PUMPS

G4/Bolero/Ritmo

- Cost effective, versatile & lightweight solution for small construction sites
- Combination of mixing, pumping and spraying pump with clockwise and anti-clockwise operation
- Precise control over mixing and mortar source times
- Mortar pressure gauge integrated
- Safety switch
- Reduction of dust exposure, maintenance friendly and easy to clean
