

CASE STUDY - SHOTCRETE REMEDICATION & STABILISATION

> BACKGROUND:

Established in 1978, MacDonald Contracting (Australia) is an Australian, family-owned business. Situated in New South Wales, MacDonald Contracting provides specialist civil contracting services to the construction industry for jobs accross Australia.

OBJECTIVE:

MacDonald Contracting was engaged by a client in Sydney's Southern Suburbs to undertake a rock wall stabilisation project. A rock face wall, overlooking the tranquil Burraneer Bay, required remediation and stablisation works.

CASE STUDY - SHOTCRETE REMEDICATION & STABILISATION

➤ THE CGS SOLUTION:

The REED A30HP machine was selected for its versatility, ease of use, simplicity and reliability. The machine was set up with appropriate steel pipe, hose and clamps and competency training was provided over a 2 day period. The machine was towed across the Goulburn Valley Region behind an ISUZU 2T Tipper to pump grouts, concrete and cementitious products into difficult access areas.

CGS EQUIPMENT - THE INDUSTRY'S SUPPLIER OF CHOICE

> WHY CHOOSE CGS EQUIPMENT?
