

Quality mixing and pumping solutions for  
all things Concrete, Grout and Screed

# Workshop and technical capabilities

Partner with CGS  
Equipment for reliable,  
efficient, and high-quality  
workshop services that drive  
your project's success.

CGS Equipment is your trusted partner for concrete, grout, and screed equipment solutions. Our expert team of technicians are available to ensure your equipment always remains in peak operating condition, reducing downtime and delivering optimal performance.

Our workshop and technical services include.

### **Repairs & maintenance:**

Our technicians can undertake a comprehensive inspection of your equipment and provide advice on any repair work required. We accept all jobs, from minor fixes and wear part replacement to full equipment overhaul.

### **Field service:**

When equipment issues arise on-site, our mobile field service team is ready to assist. We provide fast, efficient troubleshooting and repairs at your location, minimising disruptions and keeping your project on track.

### **Preventative maintenance programs:**

Reduce downtime and extend equipment life with our scheduled maintenance programs. We develop customised service plans to keep your machinery in peak condition, preventing costly breakdowns before they happen.

### **Service kits:**

We offer service kits that include all of the essential parts and consumables needed to undertake routine maintenance. Designed for convenience, our kits help you perform quick and effective servicing, keeping your equipment running smoothly.

### **Training:**

Hands-on training sessions on any machine within our range, delivering your operators confidence to use and maintain your equipment. We tailor your training session to your specific needs, covering everything from basic operation to advanced troubleshooting.

Our nationally located representatives are always on hand to offer you guidance and support, wherever you are.

## Why choose CGS equipment?

### **Expert knowledge:**

Our team are the equipment experts, available to deliver training and technical support when you need it, where you need it. Work with the confidence that we have your back.

### **Fast & reliable:**

We understand how important your equipment is to your business. That's why we ensure we undertake our work quickly and efficiently to keep you operating.

### **Quality workmanship:**

We pride ourselves on delivering the highest standard of workmanship quality. Our QA procedures give you confidence that your equipment is in good hands.

### **Comprehensive parts range:**

We stock a massive range of parts and accessories to ensure you have the parts you need always available.

### **Exclusive partnerships:**

We are the exclusive distributor for our renowned American and European brands, offering original manufacturer parts. Don't compromise on quality.

### **Customer service focus:**

Our business is built on a foundation of exceptional customer service. We prioritise building long-lasting relationships with our customers and are invested in your success.
