FORCED-ACTION MIXERS – DANISH ENGINEERING FOR A BETTER WORKDAY

Designed in Denmark. Trusted worldwide.

Staring's STB series of forced-action mixers is designed for professional contractors who demand reliability, precision and long service life — even in the toughest environments.

With more than 60 years of engineering experience, we build mixers that deliver consistent performance, low maintenance needs and a noticeably better mixing result compared to standard market alternatives.

MODEL	STB-65	STB-90	STB-110
Product no.	STB-006515230CHK	STB009015230CHK	STB-011015230CHK
Mixing capacity	65 L	90 L	110 L
Motor power	1,1kW (S1)	1,5kW (S1)	1,5kW (S1)
Voltage	230V~50 Hz	230V~50 Hz	230V~50 Hz
Mixing arms	2	3	3
Drum diameter	560 mm	600 mm	680 mm
Discharge height	655 mm	615 mm	635 mm
Overall height	652 - 1190 mm (adjustable)	1350 mm	1300 mm
Total weight	61 Kg	90 Kg	97 Kg
When and why to choose this model?	Easy to handle on any small job site. It features a safety lid with bag cutter, magnetic safety switch, and adjustable paddles, while the height-adjustable frame ensures comfortable working height. Can easily be loaded by one person. Puncture-proof wheels and raised loading wheels make transport effortless.	Combines compact handling with extra capacity for everyday professional use. It includes a safety lid with bag cutter, magnetic safety switch, and adjustable paddles, while the height-adjustable frame ensures a comfortable working height. Can easily be loaded by one person. Puncture-proof wheels and raised loading wheels make transport easy on any job site.	A solid mid-size capacity while remaining easy to handle on site. It features a safety lid with bag cutter, magnetic safety switch, and adjustable paddles for consistent mixing performance. Can easily be loaded by one person. The height-adjustable frame supports ergonomic operation, and puncture-proof wheels with raised loading wheels ensure smooth, effortless transport.

HOW WE COMPARE?

Feature	Staring STB-Series	Typical Competitors
Motor rating	S1 continuous-duty (always the biggest)	S6 / intermittent (Periodic duty)
Discharge efficiency	VibFlow® patented system	Manual only, more residue
Build quality	Reinforced steel, Danish QC	Mixed, often lighter frame
Mixing consistency	High torque, low RPM	Higher RPM, less torque
Maintenance	Low – long-lasting parts	Medium/High
Safety	Enhanced guard & emergency stop	Standard guards
Wheels	Large solid rubber wheels	Often plastic sometimes solid rubber

When performance matters, the choice is simple...

STB-200	STB-324	STB-500
STB-020030400CHK	STB-032440400CHK	STB-0500075400CHK
200 L	300 L	500 L
3,0kW (S1)	4,0kW (S1)	7,5kW (S1)
400V~50 Hz	400V~50 Hz	3x400V-50 Hz
3	3	4
850 mm	990 mm	1250 mm
630 mm	605 mm	635 mm
1355 mm	1270 mm	1600 mm
225 Kg	238 Kg	555 Kg
Offers a larger mixing capacity while staying stable and easy to operate on demanding job sites. It includes a safety lid with bag cutter, magnetic safety switch, and adjustable paddles for reliable, uniform mixing. The height-adjustable frame supports ergonomic loading, and puncture-proof wheels with raised loading wheels provide smooth, controlled transport.	High mixing power and a generous 300 L capacity for demanding professional workloads. It features a safety lid with bag cutter, magnetic safety switch, and adjustable paddles for strong, consistent mixing. The height-adjustable frame supports efficient loading, while puncture-proof wheels and raised loading wheels ensure smooth handling despite the larger size.	Maximum capacity and strong, reliable mixing performance for large-scale professional jobs. It features a safety lid with bag cutter, magnetic safety switch, and adjustable paddles to ensure consistent results. The height-adjustable frame supports efficient loading, while puncture-proof wheels and raised loading wheels provide stable, controlled transport despite the heavy-duty size.

Danish Quality, Ready for Down Under.
